Deadline for manuscript  
submissions:

**31 March 2025**

### Message from the Guest Editor

We are pleased to announce a call for papers for a forthcoming Special Issue of the journal "Viruses," dedicated to exploring the complex interplay between viral infections and ocular diseases. This Special Issue will compile a diverse collection of research, review articles, and original studies that illuminate the effects of various viral pathogens on ocular health. We are particularly interested in insights related to COVID-19 and retroviruses like HTLV-1 and HIV. Additionally, we welcome contributions that investigate ocular diseases caused by other viruses, such as adenoviruses, herpesviruses, and dengue virus, as well as chikungunya virus, and their impact on the eyes.

an Open Access Journal by MDPI

## Editor-in-Chief

Replication Program, Center for  
Cancer Research, National  
Cancer Institute, Frederick, MD  
21702-1201, USA

## Message from the Editor-in-Chief

*Viruses* (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

**Journal Rank:** JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
