submissions:

closed (1 March 2026)

Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Viruses* will address a spectrum of topics on mpox and the MPXV including epidemiology, clinical features, molecular genetics, immunology, virology, diagnosis, treatment, prevention, and vaccination. Articles describing the MPXV in natural animal hosts and experiment animal models of infection are welcomed. Submissions which discuss the infection among special groups, including immunocompromised persons, pregnant persons, children, and commercial sex workers, and its association with sexual transmission are encouraged. Submissions can be in the form of original research articles, reviews, communications, viewpoints, case reports, and editorials. Illustrative and graphic materials including photographs are encouraged when possible.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.**

Journal Rank: JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)
