Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editor

Dear Colleagues,

It is anticipated that phage therapy combined with antibiotics will have considerable synergistic therapeutic effects. However, antagonistic effects have also been reported. As phages are unprecedented and variable in many respects, there may also be wide variations between them with regards to interactions between different antibiotics.

There is high interest to collect experiences on the topic, both in vitro and in vivo. Therefore, we propose the launch of a new Special Issue, titled “Phage and Antibiotic Combination Therapy against MDR Bacteria”, with myself acting as a Guest Editor.

We welcome original articles, reviews, short communications, and case reports on the topic.

Prof. Dr. Mikael Skurnik  
*Guest Editor*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Viruses* (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

**Journal Rank:** JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
