### Message from the Guest Editors

Dear Colleagues,

We welcome any and all work on this subject, including: basic biology of human respiratory syncytial virus (hRSV) and human metapneumovirus (hMPV), clinical and vaccine studies, animal models, and primary studies featuring animal pneumoviruses, such as bovine RSV and pneumonia virus of mice.

Dr. Helene F. Rosenberg  
Dr. Joseph B. Domachowske  
*Guest Editors*

Deadline for manuscript  
submissions:

**closed (31 May 2013)**

an Open Access Journal by MDPI

## Editor-in-Chief

Director, HIV Dynamics and  
Replication Program, Center for  
Cancer Research, National  
Cancer Institute, Frederick, MD  
21702-1201, USA

## Message from the Editor-in-Chief

*Viruses* (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

**Journal Rank:** JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
