Message from the Guest Editor

Dear Colleagues,

Taking into account the importance of pig production in numerous countries of Europe, the purpose of the forthcoming Special Issue is to discuss the most important topics related to swine diseases, including the aspects of prevention, epidemiology, control, and food safety. Therefore, I cordially to invite you to submit your relevant papers to the upcoming Special Issue of *Viruses*. Your valuable input will hopefully enrich the current state of knowledge and practical approach to the global production of pigs.

- swine production
- porcine viruses
- biosecurity
- welfare in swine production

Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

Journal Rank: JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
