Message from the Guest Editors

Dear Colleagues,

We are planning to publish a special issue of *Viruses* devoted to current trends in vaccine development for viral diseases. This issue will cover the diverse technologies that are currently being used for the development of rationally designed vaccines and will highlight both recombinant protein-based vaccines and the application of genomic (e.g. RG-based) technologies in vaccine research. Work on both animal and human vaccines will be considered.

In light of your expertise in the vaccine area, I would like to invite you to submit a review article on your subject for this special issue.

Prof. Dr. Polly Roy
Prof. Dr. Charles Russell

Director, HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

Journal Rank: JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
