closed (31 December 2022)

Message from the Guest Editor

It has been fifty years since the first viroid was discovered in 1971. Through the efforts of the first and second generation of viroidologists, there has been great progress in the viroid research. Yet as time goes by, some of these veterans have passed away, and the rest would also gradually withdraw from the historical stage of viroid research. In this special moment, *Viruses* established a Special Issue called Viroid 2022, aiming to look back to the accomplishment of the half-century history of viroid research, and at the same time, raise the awareness of this new type subviral agent and related diseases, especially among the young biologists.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Eric O. Freed

Director, HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

Journal Rank: JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
