# Women in Virology 2024

Guest Editors:

Message from the Guest Editors

Dr. Mariana Baz

Dear Colleagues,

Prof. Dr. Barbara Baker

Dr. Priti Kumar

It is with great pleasure that we are launching this Special Issue entitled "Women in Virology 2024", which aims to highlight the contributions of female virologists at all levels of their careers (early, middle, and advanced) around the world

Dr. Ulrike Lange

Topics of interest include (but are not limited to) animal, human, and plant viruses as well as those related to diagnosis, pathogenesis, transmission, pre-clinical studies, clinical trials, antivirals, vaccines, immunology, biology, molecular virology, etc.

Deadline for manuscript

All types of articles are welcome: short communications, original research papers, review articles as well as biographies or articles celebrating outstanding virologists who are women. Although articles where the first or senior authors are women are encouraged, submissions from all authors, irrespective of gender, will be considered.

submissions: 6 October 2024

## **Message from the Editor-in-Chief**

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

### **Author Benefits**

**Open Access:** free for readers, with <u>article processing charges (APC)</u> paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Virology) / CiteScore - Q1 (Infectious Diseases)
