Water Modeling Using Combined Machine Learning and Fieldwork Investigation

Guest Editors:

Dr. Joonghyeok Heo

Department of Geosciences,
University of Texas Permian
Basin, Odessa, TX 79762, USA

Dr. Huidae Cho

Department of Civil Engineering,
New Mexico State University, Las
Cruces, NM 88003, USA

Dr. Netra Regmi

Oklahoma Geological Survey,
University of Oklahoma, Norman,
OK 73019, USA

Deadline for manuscript
submissions:

23 April 2025

Message from the Guest Editors

This Special Issue contributes to the growing body of literature that seeks to bridge traditional water modeling approaches with cutting-edge machine learning methods.

Keywords

- machine learning
- field survey
- water modeling
- big data analysis
- geostatistic analysis
- water quality and water quantity
- environmental sustainability

Special Issue

water

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (Water Science and Technology)
