Sustainable Management & Treatment of Water and Wastewater

Guest Editors:

Dr. Liwen Xiao

Dr. Yuansheng Hu

Dr. Dunzhu Li

Dr. Yunhong Shi

Deadline for manuscript
submissions:
closed (31 March 2024)

Message from the Guest Editors

To benefit sustainable development and the carbon-neutral economy transition, this Special Issue will gather and report the critical progress of sustainable water and wastewater management and treatment.

Potential topics of research or review articles may include, but are not limited to, the following:

- Pollutant monitoring in water and wastewater;
- Risk assessment and mitigation in the water and wastewater systems;
- Emerging technologies to harvest energy and resources from wastewater;
- Advanced oxidation processes for wastewater treatment;
- Sustainable Policy and Management for water and wastewater recycling;
- Microplastics detection and mitigation in water and wastewater;
- Water and wastewater reuse.

We are looking forward to hearing from you.

Special Issue

water

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
