Advances in Assessing Water Ecosystem Services for Water Resource Management

Guest Editor:

Dr. Hongbo Ling

XinJiang Institute of Ecology and Geography, Chinese Academy of Sciences, Xinjiang, China

Deadline for manuscript submissions:
closed (30 October 2022)

Message from the Guest Editor

With the rapid development of the economy and the rapid growth of the population, human beings are over-developed to soil resources, causing a decline in water ecosystem function. Water ecosystem functions play a key role in supporting and protecting regional ecosystems, which is very important to ensure regional ecological security and optimizing land spatial patterns. Effective management is critical to coordinating the conflict between water ecology and soil resources development.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (Water Science and Technology)
