Deadline for manuscript
submissions:

25 November 2024

Message from the Guest Editors

Dear Colleagues,

Membrane Capacitive Deionization (MCDI) is an innovative technology that has gained significant attention in recent years for its promising applications in desalination and wastewater treatment, offering an energy-efficient and cost-effective alternative to traditional desalination and water treatment methods.

This Special Issue aims to compile cutting-edge research on Membrane Capacitive Deionization Technology, providing a platform for researchers and practitioners to share their latest findings on the application of MCDI as water treatment technology as well as innovations and challenges in this rapidly evolving field.

We look forward to receiving your high-quality contributions to this Special Issue, which will undoubtedly contribute to the advancement of Membrane Capacitive Deionization in the field of desalination and wastewater treatment.

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (Water Science and Technology)
