Zooplankton Diversity in Water Bodies

Guest Editor:

Dr. Artem Y. Sinev

A.N. Severtsov Institute of Ecology and Evolution Russian Academy of Sciences, Moscow, Russian

Deadline for manuscript submissions:

closed (30 November 2022)

Message from the Guest Editor

Continental waterbodies are strongly affected by both climate change and human activities. Investigations of plankton communities are important for zoogeographical studies, habitat conservation and restoration, and the detection of invasion. This Special Issue is dedicated to the study of plankton communities in any regions and types of water body, with emphasis on the diversity and faunistics of three main groups of zooplankton: Rotifera, Cladocera, and Copepoda in both pelagic and littoral habitats, [...]

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
