Deadline for manuscript submissions:

30 April 2025

Message from the Guest Editor

Dear Colleagues,

The special issue is designed to bridge the nexus between the development of renewable energy technologies and their socio-economic implications. Research areas may include (but are not limited to) the following:

Interplay of Renewable Energy Policies and Market Responses: A Global Analysis; Technological Innovation in Renewable Energy: A Socio-Economic Perspective;

The Role of Renewable Energy in Economic Growth and Job Creation: A Cross-Country Examination;

Decentralized Energy Systems: Evaluating the Socio-Economic Impacts of Renewable Microgrids; Energy Poverty Alleviation through Renewable Sources: An Investigation into the Economic and Social Dimensions;

The Influence of Renewable Energy Advancements on National Security and Geopolitical Dynamics;

Sustainable Urban Development: Integrating Renewable Energy Solutions into Socio-Economic Planning Strategies;

Environmental effects of renewable energy;

Application of mathematical and econometric models in renewable energy development.

Prof. Dr. Yugang He
